Video: .MP4 with no maximum resolution.

For best results, supply the videos in the banner sizes by multiplying the format size by 2 (e.g., 300x600 → 600x1200). This ensures the quality of the video.

IF supplying videos in the banner size is not feasible, please send all available formats (1:1, 4:5, 9:16, 16:9).
